

Credit Analytics Product and Functional Coverage

Lakshmi Krishnamurthy v2.2 – 11 August 2013

Product Coverage

Base Type		Variants and Details
	•	Bullet
		o Fixed Coupon
		o Floating Rate
		 Capped Coupon floor and ceiling
	•	Amortizing Bonds
		 Bonds with sinking funds
		 Deterministic coupon and notional schedules
		 Schedules specified as pay down or outstanding
		 Accreting and capitalizing bonds
		 Step up and Step down coupon schedules
	•	Bonds with embedded schedules
		o European Call or Put Schedules
Bonds		o Bermudan/American Call/Put Schedules
Bollds		 Concurrent and overlapping Calls and Puts
		 Fix to float on exercise
	•	Differing coupon, redemption, and trade/quote currencies
	•	Custom bonds
		 Custom coupon and notional schedules (pay down or
		outstanding)
		 Custom coupon period generation functionality
		 Custom quoting/settlement parameters
		o Custom rates/credit/currency/fixing parameters
		o Custom embedded option schedules (concurrent put/call,
		fix to float, American exercise dates etc)
	•	TSY marked bonds – linkable to more than one treasury
		benchmark

	•	Varying contract details
		 Vanilla fixed coupon CDS
		 Amortizing notional CDS
		o Fixed recovery CDS
	•	Standardized CDS varieties
Credit Default		o ISDA style, with variants for NA SNAC, EU standard
Swap (CDS)		CDS, EM's STEM contract
		 Standard 100 bps/500 bps with upfront quotes
		 Support for old style pure running CDS
	•	Custom CDS
		 Notional/recovery schedule
		 Highly flexible period generation and settlement rules
	•	Supports all the standard CDX indices traded, including CDX
		NA variants (on-the run and off the runs varieties), and
		iTRAXX EUR series, different versions and tenors
		o CDX NA – IG, HY, HY.B, HY.BB, HVOL, XO, EM
		o LCDX, SovX, Trac-X, LevX, TRACERS (Check CDX
Credit Default		Coverage for the comprehensive list)
Swap Index (CDX)		o ITRAXX EUR – IG, HY, HVOL, XO, NON_FIN,
		FIN_SNR, FIN_SUB
	•	Custom CDS baskets
		 Customizable components and their weights
		 Customizable outstanding notional and coupon
		schedules, as well as component amortization schedules
	•	Support for the standard iShares ETF
	•	Support for the creation of customizable bond baskets
Bond Basket		o Customizable components and their weights
		o Customizable outstanding notional and coupon
		schedules, as well as component amortization schedules
Interest Rate	•	Cash/Monet Market Product

Products	Euro-Dollar Future Contracts – explicit, as well by name
	IRS Variants
	 Vanilla fixed coupon IRS
	Amortizing notional IRS
	 Multi-leg IRS – multiple fixed and float legs
	Highly flexible period generation and settlement rules
	FXSpot
FX	FXForward
	• FXSwap

Fixed Income Analytics Coverage

Category	Details
Holiday	 Support for holiday schedules of 126 jurisdictions
Day Count Conventions	■ Supports 30+ day count conventions – all the main DCC
Date Adjustment and Roll	■ Supports 15 different date adjustment/date roll conventions
Date generation	 Generation of the standard IR product schedules (Cash/EDF/IRS/treasury) and credit products (CDS/CDX/bond) in accordance with typical generation rules (e.g., IMM) Forward/backward generation with customizable period pay/accrual/reset dates

Calculated Analytical Measures Coverage

As a general note, product generates three versions of every measure – the base (of non-prefixed) version, the "Fair" of theoretical version, and the "market" version. Further, if the market version is available, the base defaults to that version; otherwise, it defaults to the "fair" version.

Exact measure names are given in the columns below – these names are to be used exactly as listed when querying for a given measure for any purpose (including measure based calibration).
